ISO 45001 Internal Auditor

Training Overview:

This ISO 45001:2018 Internal Auditor course equips participants with the skills to plan, conduct, and report occupational health and safety audits. Participants learn how to assess compliance, identify hazards, and support improvements in workplace safety performance.

Through practical exercises and real-world scenarios, participants develop audit plans, gather objective evidence, and drive corrective actions. The course emphasizes measurable impact, including reduced incidents, lower costs, improved productivity, and stronger safety performance.

Training Objectives:

- Interpret ISO 45001:2018 requirements and their application
- Understand risk-based thinking in health and safety audits
- Plan audits including scope, objectives, and criteria
- Develop audit checklists and schedules
- Conduct audits and evaluate safety performance
- Identify hazards, nonconformities, and improvement opportunities
- Gather objective evidence and assess compliance
- Prepare clear and actionable audit reports
- Ensure corrective actions are implemented and verified
- Connect audit results to safety and operational performance
