ISO 9001 Lead Auditor

Training Overview:

This ISO 9001:2015 Lead Auditor course equips participants with the skills to lead, manage, and execute internal and external audits. Participants build on internal auditing fundamentals to lead audit teams, manage complex audits, and drive system-level improvements.

Through hands-on exercises and real-world application, participants develop the capability to plan and lead audits, facilitate audit activities, and ensure effective follow-up. The course emphasizes measurable impact, including improved audit effectiveness, reduced risk, and stronger quality system performance.

Training Objectives:

- Interpret ISO 9001:2015 requirements and apply them in audits
- Plan and organize audit programs and schedules
- Lead audit teams and manage audit activities
- Facilitate meetings and guide audit execution
- Conduct audits and assess compliance effectively
- Handle complex audit situations and resolve conflicts
- Identify nonconformities and improvement opportunities
- Ensure corrective actions are implemented and verified
- Drive continuous improvement through audit programs
- Connect audit results to operational and financial performance
